

[Continued from first page.]
as to do it reverence. An occasional occurrence may give it a temporary importance. Some one may take hold of it, as heretofore, to give himself a local popularity or a general notoriety. He may be encouraged by a recent appointment here, which seems like a reward for having agitated this question, and procuring the instructions by a legislature to her Senators to vote for it in this body. But that will amount to very little in the end, and will die forgotten as a dream. I move that the Senate adjourn.

The motion being temporarily withdrawn—
Mr. CALHOUN said: I rise simply to state upon what grounds I made the assertion that the act of Pennsylvania was similar to the act of New York, but did not go so far. The act of New York makes it penal even for the citizens of New York to aid the federal officers. The act of Pennsylvania does not, but makes it illegal for her magistrates and citizens to co-operate, except with the federal officers. Now, the provision of the constitution of the United States requires an active co-operation on the part of the State, its citizens and magistrates, in the delivery of fugitive slaves, and anything short of that is a violation of the constitution, and calculated to destroy the efficiency of the law of the United States in reference to that subject. To that extent the law of Pennsylvania, as well as that of New York, is unconstitutional.

Mr. CRITTENDEN.—What is the motion pending?
The PRESIDING OFFICER.—The Senator from Pennsylvania made a motion to adjourn but gave way to the Senator from South Carolina.

Mr. CRITTENDEN.—I intend to renew that motion. I think after the excitement we have all witnessed to-day, we will be better prepared to decide with the deliberation which usually marks the proceedings of this body, at a future session. I move, therefore, that we now adjourn.

Mr. BENTON.—Will the gentleman withdraw the motion for a moment? I move that the paper be printed.

Ordered, That the bill be printed for the use of the Senate.

Mr. JOHNSON, of Maryland, then gave notice, that should the Senator from New Hampshire have leave to introduce his bill, he would move the following resolution:

Resolved, That the committee to whom was referred the "Bill relating to riots and unlawful assemblies in the District of Columbia," be, and they are hereby, instructed to amend the said bill by inserting a section in the same for the effectual protection, by penal provisions or otherwise, of the citizens of this District, and other citizens of the United States, in the undisturbed possession and ownership of their property in slaves in such District.

On motion,
The Senate then adjourned.

Farmers Department.

SCALDING MILK.—In Devonshire, England, where dairying is extensively practiced, the milk intended for the churn, or for cheese is scalded as soon as it comes from the cow. This process obviates most effectually the natural tendency of the milk to sour in warm weather, and when intended for butter making, secures the advantage of sweet milk for good use, after the cream is removed.

Good Crops of Corn.—Mr. John Miller of Jeffersonville, Pa., raised last year, 94 bushels of corn per acre, and that others in the vicinity raised from 60 to 80 bushels per acre. He says: "A spirit of emulation has been awakened among us, and a general benefit will result to the agricultural community in this district."

Ohio Swine.—The Ohio Cultivator gives the number of hogs in each county and State, according to the census for 1846 and 1847. In every one of the 83 counties the number has increased, except in two, viz: Champaign and Lawrence. In 1846, there were 1,405,621. In 1847, there were 1,751,318.

To Destroy Sorrel.—Manure well early; plow deep, early; harrow well; plant corn 3 or 4 feet each way; pass the cultivator through every ten days, till the middle of summer; then sow 12 lbs. of clover seed per acre, and pass the cultivator again. Clover will take the place of the sorrel.

Quantity of Carrot Seed for an Acre.—The quantity of seed required for an acre, depends on the width between the rows; the usual width is about sixteen inches; and when sown with a good machine, about one pound is sufficient for an acre.

Preserving Hams.—A canvas cover, for each ham, well whitewashed, is an infallible protection of hams, against flies. They may also be well kept in dry saw dust.

Whitewash for Fences.—One ounce white vitriol, (sulphate of zinc,) 3 ounces of common salt, to every 3 or 4 lbs. of good fresh lime, it is said, render it very durable, exposed to the weather.

India Rubber Horse Collar.—This is a new invention, consisting of India rubber inflated with air. It is said to fit easier on the horse's neck than anything yet made.

In New South Wales, according to foreign papers, more than 350,000 cattle and sheep have, within the last two years, been boiled up for their tallow.

Moss on Fruit Trees, may be removed by soap-water, thin whitewash, or a mixture of cow-dung, urine and soap.

A LARGE BILL FOR MILEAGE.—Yesterday, application was made to the United States Circuit Court to allow mileage to Luther Toole, who was sent here from Rio Janeiro as a witness in the late prosecution against William Brown, charged with piracy. The amount allowed witness for mileage is five cents per mile circular—that is, coming and going.

The distance from Rio Janeiro to this port is in the neighborhood of eleven thousand miles, and if the claim is sustained, the amount due the witness will be over \$1100. A pretty profitable voyage for a Yankee sailor.

Bus—A self-taught botanist, whose works command a ready sale.—The Count of Flour.

your humors are expelled, you have no more fever. When a patient with fever submits to be bled, or has his blood poisoned with mercury, it weakens his frame to such a degree that if he survives the process, it always leaves him subject to distressing phlegm, when 2 times out of 10 he resorts to sugar pills, powders, or tonic mixtures; this is going from bad to worse, as these vegetable pills, powders, &c. are nothing but mercury and quinine in disguise, which may for a time drive the disease so far into the body as not to be perceptible, but very soon it will break out again with fearful violence. To cure acute and fever, the cause of the disease must be removed out of the blood and body, which can be effectually done by using Dr. SWEETSER'S PANACEA, which purifies, cleanses and strengthens. It contains nothing that can possibly injure, and its use is always a safeguard against chills and fevers.

FILES.
In ALL CASES OF FILES, Dr. SWEETSER'S PANACEA will effect a very speedy cure. It removes from the blood, stomach and bowels, all those foul acid burning humors, which are the cause of this disease, and by strengthening the digestive organs, improves every part of the entire body.

FLATULENCE AND WIND.
These diseases are caused by the stomach and bowels being choked up with vitiated air matter, which enters from an impure and unwholesome food, or by some contraction of the stomach to expel it; hence the cause of pain. A few doses of Dr. SWEETSER'S PANACEA will convince the sufferer that relief is attained.

GREAT MEDICINE FOR CHILDREN.
Parents will find the PANACEA a valuable medicine for their children, keeping their bodies in a healthy condition, thereby assisting their growth; children or grown persons, after taking it, are not liable to be attacked with an epidemic as before, as it always leaves the blood in a pure condition, and the entire system in a strengthened state; it drives out all kinds of weaknesses from the body and leaves all health within.

MARRIED LADIES.
Will find Dr. SWEETSER'S PANACEA a medicine purely adapted to their use. Most ladies during the period of pregnancy are afflicted with piles, Dr. SWEETSER'S Panacea, by regulating the bowels, will entirely obviate this, and its purifying properties, by cleansing the system, will prevent the offspring. No one who is a mother should be without it, and those who are nursing will find it of great benefit to the health of their infants.

For barrenness and all diseases of the womb, it is without a rival in the entire history and catalogue of medicines; by its extraordinary strengthening power, it stimulates and strengthens the womb, a weakness of which is the cause of failure to have offspring.

NERVOUS DISEASES.
Under this head may be classed Palpitation of the Heart, Tremor of the Face, Neuralgia, Indigestion, Toothache, Melancholy, Hysteria, and in fact, every disease caused by the sharp, itching acrimonious humors irritating the nerves; the nerves receive the morbid impression from the stomach, or rather from the blood through the agency of the stomach and digestive organs, and although other parts of the body are apparently the seat of the disease, still it is caused by the morbid impression conveyed from the blood by the nerves, to that part. A few doses of Dr. SWEETSER'S PANACEA will soon assure the patient that he has the cure in his possession.

ERYSIPELAS, OR ST. ANTHONY'S FIRE.
This is an inflammatory disorder, always attended with more or less pain, or it chills the system, and four acrimonious humors lodged in the blood and fluids, settling on the limbs and face, causing extreme pain and fever; all applications on the surface are worse than useless, as they only tend to throw the disease in some other part, and perhaps deeper. Bleeding is likewise improper. To cure the disease you must get rid of the cause; only manage to get the humors out of your blood and you will be well in a day. Dr. SWEETSER'S PANACEA, a thorough purifier of the blood, will wash out every impurity in the more remote parts of the body and expel it through the medium of the bowels. There is not a vein, artery, muscle or organ of the entire framework of man, that Dr. SWEETSER'S Panacea does not improve. To take it when you are well is to keep well; and when sick to come well.

DR. SWEETSER'S PANACEA, being composed of a vegetable matter, or delicate herbs, and warranted on oath, as containing not one particle of mercury, arsenic, or any other poisonous substance, is found to be perfectly harmless to the most tender age, or the weakest frame, under any stage of human suffering; the most pleasant and benign in its operation that was ever offered to the world; and at the same time the most certain in searching out the root of every complaint; however deep, and of performing a cure.

Price \$1 per bottle, or six bottles for \$5. For sale, wholesale and retail, at the corner of CHARLES and PRATT STREETS, Baltimore, and every where. GEORGE BRIGGS, Sole Agent, New York, 1847.—ly

ITS WORKS PRAISE IT!
BURNS, SCALDS, AND ALL KINDS OF INFLAMED SORES CURED.
TOUSEY'S UNIVERSAL OINTMENT, is the most complete and reliable remedy known. It instantly, (and as if by magic) stops pain, kills the most desperate Burns and Scalds. For all Sore Throats, Cuts, Sprains, &c., on man or beast, it is the best application that can be made. Thousands have tried and thousands praise it. It is the most perfect medicine ever put into the hands of the family and used. Every family should be provided with it. None can tell how soon some of the family may need it.

Observe each box of the genuine Ointment has the name of Dr. TOUSEY written on the outside label.—Toilette and Dressing Boxes.

Bottoms, Livens Men, Farmers, and all who use Horses, will find this Ointment the very best thing they can use for Collar Galls, Stratches, Kicks, &c., on their animals. Surely every mercantile man would keep his name in front of his name.

To use: Apply the Ointment to all that is required. Try it.

BITES OF INSECTS. For the sting or bite of poisonous insects, Tousey's Ointment is unrivaled.—Hemorrhoids have tried it and find it good. **PHLEGM CURED.** For the cure of Phlegm, Tousey's Universal Ointment is all that is required. Try it.

OLD SORES CURED. For old obstinate Sores, that are not cured by any other remedy, Tousey's Ointment is one of the best remedies that can be applied. All who have tried it for the Piles recommend it.

OLD SORES CURED. For old obstinate Sores, that are not cured by any other remedy, Tousey's Ointment is one of the best remedies that can be applied. All who have tried it for the Piles recommend it.

DR. SWEETSER'S PANACEA

This Medicine is warranted, on oath, not to contain a particle of Mercury, Arsenic, or any deleterious mineral. The principle upon which this Medicine acts, is by assisting and harmonizing with nature; it drives out all acrimonious humors from the blood and body, and by assimilating with and strengthening the gastric juice of the stomach, it assists digestion; in short there is not a vein, artery, muscle or nerve in the human body, that is not strengthened by the PANACEA, and it also possesses the remarkable property of removing mercury from the bones and joints.

FOR ERUPTIONS OF THE SKIN.
Scoury, Scorbatic Affections, Tumors, Scrofula or King's Evil, White Swellings, Erysipelas, Ulcers, Cancers, Running Sores, Scabs and Blisters, time and a determined perseverance in Dr. SWEETSER'S PANACEA, will effect a cure.

FOR INDIGESTION.
Rejection of food, Nausea, Vomiting, Nervous Affections, Bilious Complaints, Headache, Paleness, or Female Irregularities, Dr. SWEETSER'S PANACEA will soon effect a cure; but if obstinate, or attended with griping, flying pains, the dose should be increased, and the cure will soon be effected. Let not the patient fighting themselves with the idea that they are too weak to take much medicine; but bear in mind that this mildly operating medicine does not put to rest the frame, but most certainly drives out the impurities from the system, and by giving a composed sleep at night, and an appetite to relish any food, re-animates the whole frame with vigorous action, clearing the mind and improving the sight.

SCROFULA AND GLANDULAR AFFECTIONS.
Scrofula is said to be hereditary, the infant receiving from its parents the seeds of this disease, which increases with its years, if neglected and not subjected to frequent purgation with Dr. SWEETSER'S PANACEA, the seeds are placed in the corners of the body, and out of the way of direct communication; their real use is a subject on which much difference of opinion prevails; it suffices us to know that when in a diseased state, they are capable of being driven out by a long course of Dr. SWEETSER'S PANACEA, which restores them to sound and proper action. Scrofula, as persons can never pay too much attention to their blood, its purification should be their first thought, for after a long course of perseverance, they will ever cure hereditary diseases.

IN CASES OF JAUNDICE, ASTHMA, LIVER COMPLAINTS, TIC DOLOREUX, RHEUMATISM OR RHEUMATIC GOUT, DR. SWEETSER'S PANACEA cannot be too highly extolled; it reaches out the very root of the disease, and by removing it from the blood makes a cure certain and permanent.

For diseases of the Bladder and Kidneys, Strictures, Gravel, Stone, Piles, Fistula, Urinary Obstructions and Catarrhes of the Bladder, Dr. SWEETSER'S PANACEA is the best remedy ever tried; it removes all those acrimonious humors from the blood which give rise to the above diseases, and by keeping the blood in a pure condition, insures health.

FOR DROPSY, FALLING OF THE BOWELS.
Impurities of the Blood, Mercurial Taint, Weakness of the Spine, Palsy of the Head and Neck, Dizziness, Singing and Buzzing Noise in the Head and Ears, Dr. SWEETSER'S PANACEA will give certain relief, in all severe and chronic cases, the patients examined that have used this medicine, and perseverance will effect a cure.

For Dropsy, Falling of the Bowels.
Impurities of the Blood, Mercurial Taint, Weakness of the Spine, Palsy of the Head and Neck, Dizziness, Singing and Buzzing Noise in the Head and Ears, Dr. SWEETSER'S PANACEA will give certain relief, in all severe and chronic cases, the patients examined that have used this medicine, and perseverance will effect a cure.

GRAVEL AND URINARY COMPLAINTS.
These complaints are generally attended with the most fatal consequences, and are seldom or never cured by the present mode of treatment; they usually accompany the patient to the grave, and suffering the most excruciating pains, and torture. The cause of these complaints are the same as all other diseases of the blood, humors are crusted on the first narrow passages, whence arise morbid secretions and stoppages of urine. You will find the most perfect remedy in Dr. SWEETSER'S PANACEA, which increases the quantity of urine and does not purify and strengthen the parts. By purifying the blood with Dr. SWEETSER'S PANACEA, you remove the cause of the disease, consequently it cures the disease and restores the patient to health. In its use has deprived the blood and body of all acrimonious humors and incrustation.

DISEASES OF THE LUNGS AND CONSUMPTION.
This is a very prevalent and fatal disease; it results usually from neglected coughs, colds and bronchitis, also from the use of cold and wet clothes, such as measles, fevers, inflammation and small pox, and a host of other badly treated diseases; where the cause, instead of having been thoroughly removed from the blood and body, have only been palliated or removed from one part to break out in another part, and thus the disease is perpetuated. The cause of these complaints are the same as all other diseases of the blood, humors are crusted on the first narrow passages, whence arise morbid secretions and stoppages of urine. You will find the most perfect remedy in Dr. SWEETSER'S PANACEA, which increases the quantity of urine and does not purify and strengthen the parts. The Grand Purgative

FOR THE CURE OF
Headache, Dizziness, Stomach Pains, Rheumatism, Piles, Dropsy in the Scoury, Pains in the Back, Inward Weakness, Palpitation of the Heart, Stinging in the Throat, Dropsy, Asthma, Fevers of all kinds, Female Complaints, AND A VARIETY OF OTHER DISEASES ARISING FROM IMPURITIES OF THE BLOOD, AND OBSTRUCTIONS OF THE CHANNELS OF CIRCULATION.

Experience has proved that nearly every Disease originates from Impurities of the Blood or Obstructions of the Digestive Organs; and to secure Health, we must remove those obstructions or restore the Blood to its natural state.

The operation of taking medicine is most effectually rendered by CURCUMA, a Vegetable Purgative, which, being completely enveloped with a coating of pure white Sugar, is as distinct from the internal ingredients as a nut shell from the kernel, and has no taste or smell. But as we are equally anxious to be cured, we will swallow the medicine as easily as candy. Moreover, they neither nauseate or grip in the slightest degree, but operate equally on all the diseased parts of the system, instead of confining themselves to, and racking any particular region. Thus, if it is Liver affected, one ingredient will operate on the liver, and another on the lungs, in the pleura, and by giving a composed sleep at night, and an appetite to relish any food, re-animates the whole frame with vigorous action, clearing the mind and improving the sight.

SCROFULA AND GLANDULAR AFFECTIONS.
Scrofula is said to be hereditary, the infant receiving from its parents the seeds of this disease, which increases with its years, if neglected and not subjected to frequent purgation with Dr. SWEETSER'S PANACEA, the seeds are placed in the corners of the body, and out of the way of direct communication; their real use is a subject on which much difference of opinion prevails; it suffices us to know that when in a diseased state, they are capable of being driven out by a long course of Dr. SWEETSER'S PANACEA, which restores them to sound and proper action. Every attention will be paid to the Packing of Goods, and in the execution of Orders, the quality and prices will be fully guaranteed against all competition. Philadelphia, June 10th, 1847.—ly

SIX YEARS AGO
THE children born to cry for Sherman's Lozenges. The Lozenges were not so loud at that time, but it has kept increasing ever since, and now has become so great that the mouths of the little ones can scarce be stopped. Dr. Sherman sympathizes with the little sufferers, and very much regrets that any of them should be disappointed. Knowing the vast benefit which has been conferred upon the community by the introduction of his infallible

WORM LOZENGES.
he has entered into arrangements for enlarging his Manufactory, by means of which he thinks he can supply the demand. And the same pains and care will be taken, that these celebrated Lozenges be made as they have always been, in order that those who depend upon them, may not be disappointed in their hopes. He knew when he first introduced the Lozenges, that he had conferred upon the community by the introduction of his infallible

COUGH LO
